Technical Specification

S24GECE1200M1

1. Working Voltage : 220V/50 Hz AC/110V/60 Hz AC/380V/50 HzAC or DC 24 V
2. Motor Power : 120 W x 2
3. Running Speed : 10~15m/min
4. Applicable Door Weight : 1200 Kg
5. Working Temperature : -50°C - +50°C
6. Machine Net Weight : 25 Kg
7. Reserved Cable Installation : 1mm² x 6-core (or 1.5 m² x 2-core) Cable

Product Specification

Open Thrust : 600 N

Lifting Range : 0~300mm

Remote Control Distance : Open Area > 50 Meters

Relative Humidity : <60%

Special Functions

One Key Mode / 4 Key Mode

Easy Lock Functions on remote

Single Leaf or Double Leaf Opening

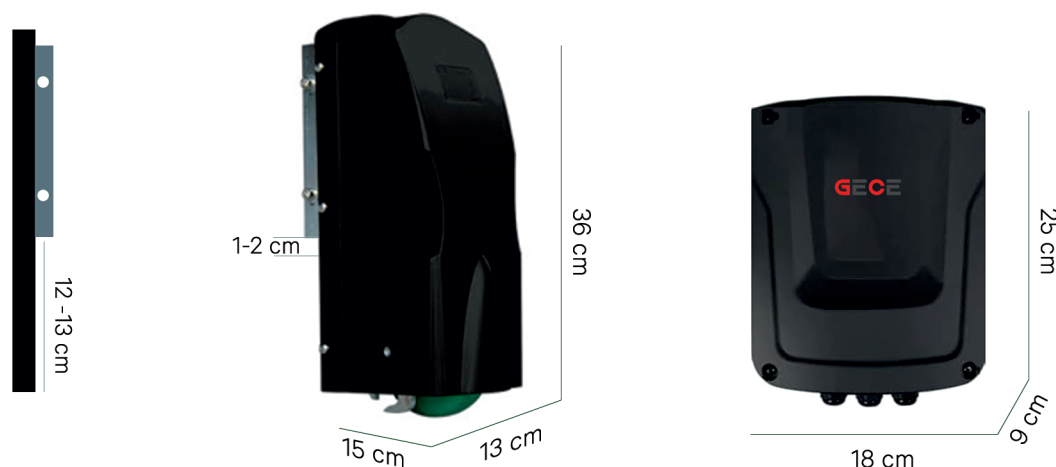

Automatic Detection and Protection

Access Control

Gate Operating Indication

Backup Battery Interface

Gate Opening Angle and Sequence can be set
